Montessorians from every state in the USA, every province in Canada and from over 140 countries worldwide have graduated from our Montessori Diploma programs.

Infant / Toddler Diploma Program (0-3 years)

The program material is fantastic and everything necessary to understand the method has been well laid out. I loved every bit of the Infant/Toddler program and cannot wait to use my learning in the Montessori environment. The manuals and the guidance from my tutor contributed to this positive experience with NAMC! The program material is fantastic and everything necessary to understand the method has been well laid out. I will treasure my NAMC manuals. My tutor was wonderful and I was so glad to have her as my mentor.

Roshni Mudapa, NAMC 0-3 Graduate
Michigan, USA

The Infant/Toddler program gives you the tools and inspiration to be creative and understand the process of learning in a child's life. Every manual can and should be used as a resource in the classroom every day as a way to enhance the learning environment and explore ideas.

Teresa Driskill, NAMC 0-3, 3-6 Graduate
Missouri, USA

I spent over a year looking for a Montessori training program of excellent quality and at an affordable price. After finding NAMC, I phoned around my hometown and other schools abroad and was pleased with the positive response toward NAMC's diploma programs and my future as a Montessori Directress. During my first NAMC program I found my tutor to be very warm, kind-hearted, and supportive throughout my studies. This continued throughout as I decided to study four of NAMC's diploma programs: 0-3, 3-6, 6-9, and 9-12 years. The NAMC staff is all wonderfully supportive. The programs themselves are excellent, and the curriculum manuals and resources are magnificent. NAMC offers a willingness to support anyone from all walks of life and any institution, and they provide a sense of belonging. I am very proud to be an Ambassador for NAMC.

Althea Lookwhy, NAMC 0-3, 3-6, 6-9, 9-12 Graduate
Switzerland / France

The Infant/Toddler program is well coordinated to help a new teacher like me find the confidence to set up my environment and work with the children who will come through our program. I have learned to be a support for the parents and also to set up my classroom environment so that it is inviting to the young toddler, offering him/her many opportunities to explore. I enjoyed the entire NAMC curriculum - thank you to all who helped put this together. I appreciated having a personal tutor, and I am so thankful for all her help and dedication.

Taryn Halmos-Andres, NAMC 0-3 Graduate
Hawaii, USA

The Montessori Training Program offered by NAMC will not disappoint you! The materials that you will receive are of the highest quality. The manuals are well structured and easy to follow; this is very suitable for the student who is not a native speaker of English. The program is interesting and challenging at the same time. A student doing any of the NAMC programs is going to find this a most enjoyable journey of learning. Customer support is always available so that a student or an administrator does not feel that they are on their own. NAMC is committed to making sure the students who take the course succeed. Thanks to the NAMC team for making Montessori teacher training accessible to the remote regions of the world.

Vernon Lehmann, NAMC 0-3, 3-6 Graduate
Early Learning Project Manager, Kazakhstan

I love the course materials; all the guides are well written and include amazing graphics and information. I was able to use my guides to set up my classroom and in making “works.” I will most definitely recommend your program, and I look forward to getting my primary training in the near future through NAMC. My tutor was amazing and so prompt. She was really quick about sending detailed feedback. Thank you — I am excited to be a part of NAMC!

CaTessa Jones, NAMC 0-3 Graduate
Texas, USA

We keep the manuals handy in the classroom so they are always available when we need them. I enjoyed the Infant/Toddler program. In New Zealand an infants and toddlers Montessori teacher training program is not available, and there are very few infant and toddler classes/schools. We were one of the first ones in our area to set up an infants and toddlers room to complement the 3-6 room, so NAMC’s program was very helpful. It assisted us in developing an understanding of Montessori education for the youngest age grouping and refining the presentation process, as well as providing lots of ideas for integrating the method into our classroom.

Carol Hirst, NAMC 0-3 Graduate
New Zealand

Everything exceeded my expectations; my tutor was great and the material is very well designed. When my son was young, I began researching different philosophies and I found that Maria Montessori's work aligns with my core values and beliefs. Learning the Montessori concepts has put things into context for me. I found great pleasure working with my son and watching him grow into a happy, secure, and independent child. My studies with NAMC have provided me with more than 100 activities that will help my son develop his cognitive, motor, social, language, practical life, and sensory skills. I have also learned how to extend those activities further according to his individual needs and interests. I have already recommended NAMC to many others who have shown an interest in learning and applying Montessori in depth.

Early Childhood Diploma Program (3–6 years)

NAMC's Montessori Diploma Program helped me develop a high degree of self-confidence and enthusiasm for guiding, preparing, organizing, teaching, and learning. **The program has helped me "learn how to learn" and showed me in detail how I can, in turn, help a young child to "learn how to learn."** A big thank you to the great tutors, staff, and administration — all of you are awesome at being on top of things and making it possible for me to graduate with such high marks. I have no words to describe what it means to me. With my Montessori diploma, ECE, CYC (Child and Youth Care Education), and music education, I feel like I could now go for my Master or PhD of Education. Wow! I never imagined that I would be able to achieve my educational goals as a mature student. It was the greatest pleasure to study this wonderful program. Thank you!

Henrietta Choromanski, NAMC 3–6 Graduate
British Columbia, Canada

I really feel like I was being taken care of, and that someone really cared about my education. I have learned so much and was already offered a lead position for next year! I want to thank NAMC for their affordable, flexible, well put together Montessori distance education programs for teachers. I found everything I needed in my NAMC manuals, detailed emails with instructions, reminders, and the NAMC website. Everything from day one was smooth sailing – NAMC could not have made it any easier. My correspondence was always answered within a day or two, with quick, courteous, and knowledgeable responses. I really enjoyed the one-on-one tutor program. I always received very detailed and positive feedback from my NAMC tutor. I was extremely pleased with the program! If it were not for this program I may have never been able to get my Montessori 3–6 certification. NAMC was the only training program within my price range, and also the only program I could fit into my busy schedule as a full-time Montessori Assistant Teacher. The information in the program is just as well put together and in-depth as any other Montessori college. All the teachers at my school told me how much of a difference they could see as I went on through the year. I felt different as well – so much more confidence in myself and in my ability to work with children. The tutoring included with the program is so incredible. I have nothing but fabulous things to say about NAMC. Thank you again!

Chanel White, NAMC 3–6 Graduate
Washington, USA

I have taken many graduate level classes throughout my adult life and this program is the very best

I have ever experienced! The manuals are beautiful, enjoyable to read, and to the point. They are invaluable and I know that I will read and re-read them over and over to perfect my skills. Congratulations on developing such a fantastic program. My tutor was the most wonderful tutor/evaluator. She was very helpful, positive, and encouraging, and she helped me feel confident in my learning. I thoroughly enjoyed every part of this program and am now even more passionate about being a Montessori teacher. Acquiring my certification with NAMC has truly been a wonderful experience. Thank you very much!

Patricia Sindewald, NAMC 3-6 Graduate
California, USA

I would like to say how pleased I am with your program! I was certified through your program and started my own thriving Montessori school! I refer all of my staff to become certified through you because of your beautiful manuals and convenient courses. I am a working mother of four small children and it would have been impossible for me to become Montessori certified if it weren't for your program! Thank you for giving everyone a chance to pursue their dreams.

Rachel Supalla, NAMC 3-6 Graduate
Director/Owner Discovery Kidzone Montessori, Montana, USA

My interest in the Montessori method began two years ago when I started working as an ESL teacher in one of the Children's Houses in Milan, Italy. Encouraged by my head teacher, I decided to learn more about the Montessori approach. **I am happy to have chosen the NAMC 3-6 diploma program as I am now well prepared to work as a Montessori teacher.** NAMC's program is challenging and thought provoking. It has given me a very sound foundation in Montessori education. I would like to thank my tutor for her professional feedback and encouragement during the course.

Sylwia Halina Godyn, NAMC 3-6 Graduate
Milan, Italy

I found NAMC's Preschool/Kindergarten (3-6) diploma program to be outstanding. Both its structure and content are very well articulated and relevant for real-life situations that, as a teacher, I face almost every day when communicating with and guiding young children. As children are our future society, their success will partially depend on their everyday learning experiences. **NAMC's program offers tools for teachers to guide children in a natural and beautiful manner.** I would recommend this program to all of my colleagues, teachers, and friends.

Rehana Lalani, NAMC 3-6 Graduate
Abu Dhabi, United Arab Emirates

I am a proud graduate of NAMC's Montessori Preschool/Kindergarten (3-6) diploma program. I am excited to let you know that I was hired as a Primary Montessori Guide (Teacher) at a public Montessori elementary school in the USA. Thank you for the valuable support with my training.

Lourdes Brock, NAMC 3-6 Graduate

I feel that the Preschool/Kindergarten (3-6) program is so amazing, as are the materials and resources that come with the program. It makes it so easy to teach children using the Montessori method. I have been teaching preschool Montessori for the past four years, and am so happy to now have my diploma. It has been an amazing distance learning educational experience, and I recommend it to those who want their Montessori certification.

Holly Hobbs, NAMC 3-6 Graduate
British Columbia, Canada

All three assignment components were thought provoking, covered the material and concepts introduced in the manuals thoroughly, and were a pleasure to complete. Overall, my experience with the program was outstanding. The staff at NAMC was courteous, professional, and quick to respond to any questions/concerns that arose during my training. The cost of the program and materials was extremely reasonable. The training manuals reflected the beauty, organization, and expertise one would expect from a Montessori program. Thank you, NAMC for providing a high quality, challenging, distance learning opportunity for a future Montessori teacher!

Christine Thomas, NAMC 3-6 Graduate
Georgia, USA

I was totally inspired by the Montessori training program you offer and especially by the 3-6 program I completed. I learned so many new things about this age group and the Montessori method. I am really excited about implementing it in our English immersion school here in Lubango, Angola. Thank you, NAMC for making this program available throughout the world. I support the Montessori method 100% and I know it can be effective all over the world.

Elizabeth Holden, NAMC 3-6 Graduate
Lubango, Angola

This program is the best. The curriculum is very detailed, interesting, simple, and interactive. People admire NAMC's Montessori curriculum because of the quality and because everything is well explained. I must confess I am happy and can't stop telling people as much as I can about this program.

Oluwabukola Dada, NAMC 3-6 Graduate
Lagos, Nigeria

I really enjoyed every step of my Preschool/Kindergarten diploma program. I loved the way my tutor guided me throughout my program, and assisted me kindly and respectfully. It was a really wonderful experience, and I would recommend anyone who is looking for the best Montessori teacher training program, to choose NAMC.

Ayeefar Ahmed, NAMC 3–6 Graduate
Sharjah, United Arab Emirates

NAMC's Preschool/Kindergarten (3–6) program was fabulous. It allowed me to gain a full understanding of the Montessori philosophy and materials. **Being able to study a course at home at my own pace was essential and I would never have been able to do it otherwise.** I enjoyed the program so much that I am looking forward to enrolling in the 6–9 program next.

Abigail Brereton Lambert, NAMC 3–6 Graduate
Grand Duchy of Luxembourg

I feel NAMC gave me a wonderful foundation in the Montessori method and insight into the importance of the lessons and materials. Many of the questions in the assignments encouraged independent thinking on my behalf. I loved being able to share my ideas and get feedback from my NAMC tutor on their merit. I believe that this program has provided me with confidence in my ability to work in the Montessori classroom with passion and success!

India Anderson Cox, NAMC 3–6 Graduate
Tennessee, USA

All of the manuals and the Classroom Guide are enriched with useful information that I cannot wait to implement in my classroom. The training videos are also enriching. I would certainly recommend this program to everyone. The responses I got from my tutor were consistently helpful and professional. It was a great experience, and I am just proud to say that I am a part of NAMC.

Sanah Naik, NAMC 3–6 Graduate
Karnataka State, India

Lower Elementary Diploma Program (6–9 years)

I am very proud of my Montessori training with NAMC and it has opened a whole new world for me as a Montessori Directress. Thank you so much for all your guidance throughout my NAMC diploma program. It was a true pleasure working with you. My tutor provided clarification that enhanced my understanding of each and every question in my journey through this amazing training. I thank you and the whole staff at NAMC for their support.

Belinda Mederos, NAMC 6–9 Graduate
Florida, USA

NAMC's diploma program and curriculum program expanded my horizons and developed my Montessori skills. I have used NAMC's curriculum with Montessori preschool students, elementary public school students and the aftercare program students. All have benefited from the new techniques that I have learned from NAMC. The resources and format inherent in the manuals allow teachers to help develop both curiosity and imagination in the children. The service and support I received from NAMC was outstanding. I have recommended your program to many of my colleagues and friends. I am a strong NAMC supporter!

Diane Simons, NAMC 6–9 Graduate
Washington, USA

After months of research, I found your curriculum thorough and visually appealing, and your supporting materials are the most complete. Your willingness to share materials, information, and your fast and courteous responses to my questions put you head and shoulders above the other curriculum providers. Thank you for your outstanding customer service! We cannot wait to get started!

Rebecca Bullington, NAMC 6–9 Graduate
Indiana, USA

The NAMC Lower Elementary program was awesome. I learned things that I never learned as a child. It's marvelous to know that the Montessori Method is designed to work with all children, and it maximizes each child's potential. My tutor was wonderful. She provided prompt feedback and evaluation of my coursework. She answered my questions thoroughly and offered her support. I loved her kind comments and encouragement! She even said that I could contact her in the future if needed. Now, that's an amazing tutor!

I loved the manuals. They were very easy to follow and comprehend. My students wanted to look at them as well. They were excited to see what lessons would be coming in the future and even selected some that they were interested in. **Your program is simply first class.** I'm a full-time college student and a full-time teacher as well. It was great being able to work at my own pace. I wouldn't have been able to take this course, but because it was distance training, I was able to.

Tami Andel, NAMC 6–9 Graduate
Texas, USA

I have a school of my own and I use only NAMC for my staff's training. As well, I homeschool my two children using NAMC's Lower Elementary program. They are doing extremely well and are ready to begin the 9–12 program. I thank you for this opportunity. You will never be able to fathom how much this has done for my children.

Carmen J., NAMC 6–9 Graduate
Gauteng, South Africa

I found the Lower Elementary program to be **flexible and informative.** I feel I learned more during this program about the structure and curriculum in a classroom than I did during my Masters and Teacher Credential program. I wish I would have completed this program before teaching my own classroom, but being a current Montessori classroom teacher did help my overall understanding of the terms and activities. The binders are set up in a user-friendly format and provide invaluable activities that can be incorporated into the classroom immediately. **My tutor was incredible and supportive** during the program. She provided immediate, knowledgeable feedback in a friendly, supportive, and encouraging way. **I would definitely recommend this program to other teachers!**

Shannon Thompson, NAMC 6–9 Graduate
California, USA

The NAMC program was perfect for my needs. I am primary trained but I worked as a Lower Elementary assistant for 4 years. As a mother, wife, and Montessori assistant, my time is limited. The NAMC program made it possible for me to study at my own schedule. The manuals are well organized, enriched, and succinct. My personal NAMC tutor was always available and helpful. **If it hadn't been for this program's flexible schedule, first-class materials, and personal tutor, I would not have been able to take my Montessori training.** The program format is well thought out and presented very logically. The assignments were enough to help me understand the lesson without feeling bogged down with lengthy papers, projects, or material-making like some other programs. **The NAMC program is perfect.**

Teresa Treat, NAMC 6–9 Graduate
Texas, USA

Studying my Lower Elementary Montessori diploma with NAMC was a wonderful experience! I learned so much; and I will definitely be a better Montessori teacher. The manuals are well organized and easy to use. The language is simple and clearly understood, which is important to students when English is their second language. All my life I had problems with mathematics, but now everything makes sense; there is logic in math! I am even having fun preparing the activities. They are so detailed and well explained. I am amazed by NAMC's dedication, accuracy, and kindness.

I was astonished reading the History manual; it is so creative, and like a real time machine—my children and I travelled to the ancient times, to outer space...it was amazing.

I do not have a single criticism. I do not think there is a better curriculum, and I cannot wait to apply it in the classroom. In the name of all the children who are going to benefit from my knowledge, thank you. I am proud to be a graduate of NAMC's program.

Lina Bayazid, NAMC 6–9 Graduate
Syria

Upper Elementary Diploma Program (9–12 years)

NAMC's training is offered in a way that made it possible for me to effectively learn the Montessori methods and materials, while still being able to work and take care of my everyday life responsibilities. I loved the whole experience with NAMC! My superintendent, who is a huge proponent of Montessori education, suggested I look into getting trained as a Montessori teacher for our new Montessori Charter School. I looked at many, many options. Living in northern and very rural Wisconsin, there are no training centers close to me. That was a big issue due to the fact that I in no way could, in good conscience, leave my family for weeks and weeks at a time to do the traditional on-site training. Then I found NAMC — it was the perfect format for our needs. The training I received from NAMC made me feel very confident that I was going to be able to implement the methods and materials as I had seen in the classrooms I visited. I can confidently talk with other Montessori teachers from around the nation and I have never felt as though I missed out on something in my training. My mentor was fantastic, extremely helpful, and incredibly insightful. It's clear the people at NAMC want you to succeed and have a successful classroom. I thank NAMC, and my superintendent, for rejuvenating my teaching career.

Keith Gay, NAMC 9–12 Graduate

I found my Upper Elementary training very valuable and interesting, and the contents of the manuals are truly astonishing. I thought it was wonderful how the manuals guide the Montessori teacher through so many different concepts and activities, following the Montessori method, pedagogy, and philosophy. The entire program was very interesting, well organized, and extremely useful. I also found the NAMC team very supportive, and I appreciated my tutor's dedication, enthusiasm, and support!

Marcela Chacón, NAMC 9–12 Graduate
Spain

I loved the Upper Elementary program and was immediately able to implement it in my classroom. The program helped me understand the Montessori methodology and transfer it to my teaching.

Christopher Weber, NAMC 9–12 Graduate
British Columbia, Canada

I have spoken enthusiastically to a lot of people in different parts of the world about NAMC's programs and how much I have enjoyed them. The manuals are very well written and informative. If I was not already an advocate for the Montessori method, NAMC's programs certainly would have converted me. After listening to my enthusiastic review of your program and how strongly it has affected me, the Montessori school in New Hampshire that my granddaughter is attending has offered for me to teach at their school anytime I wish. I have always loved education and during my time as a student in your program, I was awarded an honorary Doctorate of Education due to my strong support of education. Thank you so much for the wonderful experience.

Alice Gibson, NAMC 3–6, 6–9, 9–12 Graduate
New York, USA

The Upper Elementary program is great! It is perfect for those with families and jobs. The Upper Elementary program schedule made for stress-free deadlines and provided plenty of room for absorption and understanding. Everyone I came into contact with at NAMC was extremely helpful and friendly.

Kellie Tyson, NAMC 9–12 Graduate
Florida, USA

The Upper Elementary program was extremely interesting and informative. I loved learning and developing my Montessori experience. The manuals are beautiful.

Melissa Brookstein, NAMC 9–12 Graduate
Gauteng, South Africa

Homeschoolers and Curriculum Purchaser Testimonials

I appreciate that NAMC makes Montessori elementary manuals available to anyone who is motivated to be a Montessori teacher, anywhere in the world. In my case, there is not even one teacher training

center close to where I live. I have two young children at home and a full-time job, so having this option is very beneficial.

Reading through each of the NAMC manuals was an eye-opening experience. The manuals are clearly written so that even non-native English speakers like myself can easily understand them. Each lesson includes the preparation, step-by-step process, and multiple extension examples. For lower elementary, the Classroom Guide and Five Great Lessons | Cosmic Education & Peace manuals are the first two manuals that I would recommend to everyone who wants to be Montessori elementary teacher. I especially appreciate the detailed timetable for the first day of the school year. I come back and read these pages every year.

The curriculum support materials on CD are extremely useful, and time saving for new teachers who are starting a new classroom. The Math demonstration videos on DVD are also very helpful when reading through Math 1 manual. Not only you can visually see the presentation, you can understand the tone and speed to use when guiding your students.

Asako Harkins , NAMC Curriculum Purchaser
Wisconsin, USA

I am a French Montessori AMI assistant teacher and I have chosen to homeschool my son using the Montessori philosophy since his childhood. I decided to purchase the NAMC Upper Elementary curriculum to offer my son the variety of topics a child at this stage of development would be interested in.

I find the NAMC manuals to be clear and easy to use. The background information before the activities is a great help for the general understanding of the topic. The activities are from the simplest to more difficult, which respects the Montessori approach of learning. I appreciate the extensions of activities, the very well-chosen pictures, and all the notes for the teachers.

The NAMC manuals are a must have for any Montessori homeschooler. It gives the child the chance to develop through a Montessori path, in harmony, and to understand the whole world and its wonder ... as a citizen of the world my son will become a responsible, social, creative individual.

I am also often inspired by the NAMC blog and their deep understanding of Montessori and the child.

Virginie Pique Yakoubsohn
France

I chose to homeschool my 3 children using the Montessori approach, and I found there are many different options for Montessori resources. It is only with NAMC that I found everything I need in very comprehensive packages in one place. Their manuals have a very clear format with essential information and beautiful images. I especially appreciate the extension activities proposed at the end of each lesson. The material and lesson suggestions are very flexible and allow me to adapt to the needs of each of my children with their different ages and learning styles, including my son with Down syndrome who benefits greatly from the Montessori approach. With NAMC materials I have found what I need to create a vision and lead my children on their educational journey. In addition, the staff at NAMC is very professional and friendly to work with. I highly recommend NAMC

materials to anyone who is interested in teaching using Montessori methods, including educators like me who have little formal training in Montessori methods.

D. Berg
California, USA

Unlike other Montessori manuals and instructions available for sale or for free on the internet, NAMC's manuals have clear pictures and very clear directions with an easy step-by-step approach for anyone to follow, irrespective of their background and familiarity with the Montessori method.

K. Ram
Pennsylvania, USA

I received my manuals a month before Christmas and put them to use right away. I created materials for my toddler as Christmas gifts for him; all of which he loved! At two years old, his fine motor skills, language skills, and self-confidence have amazed everyone, including our doctor. I owe it all to the Montessori method, which we have used since he was an infant. I couldn't have gone on this journey without help from NAMC! From their manuals to their customer service, they are amazing! Someone is always there to help with any questions and the support is incredible. I look forward to continuing my journey as we move into the 3-6 Homeschool Program, and thanks again for your help!

Monica La Vella
Ontario, Canada

We have enjoyed implementing NAMC's extensive curriculum in our home, especially the math, language arts lessons, and science binders. I have found the lessons to be clearly presented, and the curriculum support materials provide amazing resources that the children and I look forward to using. We have made several booklets with the nomenclature cards as part of our science studies so far. I am looking forward to spending more time studying up on and preparing resources from the other binders this summer, and I am especially excited to dive into the Great Lessons.

Sonia Giordani-Johnston
California, USA
